

## MOVIES AND BOOKS

### Helios cinema network

**Helios cinemas**, like other cinemas in Poland, were closed due to the COVID-19 pandemic by an administrative decision from March 12 to June 5, 2020. Helios multiplexes remained closed throughout the second quarter, and their opening - after allowing such a possibility by state - took place on July 3 and lasted until November 7, 2020 - the moment when the operation of cinemas in Poland was once again suspended by an administrative decision.

Despite the difficult pandemic situation in Poland, the Helios cinemas at the opening invited viewers to premiere screenings and special projects. Due to the observance of strict sanitary procedures and properly trained staff, it was possible to safely watch interesting movies on the big screen in the largest multiplex network in Poland. Along with the reopening of multiplexes, Helios implemented an innovative sales solution - a dynamic price list, thanks to which cinema fans can save up to PLN 5-8 depending on the location and how early they decide to buy a ticket for the selected film. In addition, Helios offered the viewers to take advantage of the unique offer of a private screening, in which a well-known circle could watch a film from the list of titles prepared by the network. The shows took place in both traditional and the most modern halls - Helios Dream.

At the end of October 2020, the 50th Helios cinema was launched in Żory at Galeria Wiślanka. They consist of 4 modern rooms with nearly 700 seats, ensuring an excellent film atmosphere.
